

QUEENSLAND
MURRAY-
DARLING
COMMITTEE

Join us for a joint community workshop
hosted by the Queensland Murray-Darling Committee
and the National Carp Control Plan.

Briefings will be held in:

Charleville	Monday, 26 February 2018 at Charleville RSL 6 – 8pm Public briefing: National Carp Control Plan & QMDC native fish planning
St George	Wednesday, 28 February 2018 at St George Cultural Centre 6 – 8pm Public briefing: National Carp Control Plan & QMDC native fish planning
Goondiwindi	Thursday, 1 March 2018 at Goondiwindi Gateway to Training Building 2pm – 5pm QMDC native fish planning workshop
Toowoomba	Friday, 2 March 2018 at Cobb & Co. Museum 6 – 8pm Public briefing: National Carp Control Plan & QMDC native fish planning

Join the conversation and contribute to the National Carp Control Plan and a catchment-wide native fish management plan to improve the recreational fishing experience in the Queensland Murray-Darling Basin (QMDB).

You will have the opportunity to contribute feedback on:

- Pest fish species including the impacts of carp in local waterways
- What the NCCP program is all about
- The possible release of the carp virus, Cyprinid herpesvirus 3, as a biocontrol agent, to reduce carp in our waterways
- Why carp are a national problem
- Prevalence of carp in your local waterways
- Threats to native fish living in the QMDB
- How the waterways are currently used by the community
- Research being undertaken and past native fish projects
- Why we need your help to shape a Native Fish Management Plan

For more information or to register to attend, contact Landcare NRM Officer Thomas Foster on thomasf@qmdc.org.au or 0427 056 441.
